

Moon Hang Time Vacation

Based on a poem by David P.
Lyrics and Melody by Laurie Orth
Accompaniment by Lisa Hasselback

Lift off rocket, lift off.
Lift off to the Moon
Leave the atmosphere
Engine shutdown near.

Main booster lands on earth,
Propellant transfer station,
Translunar injection,
Moon Hang Time Vacation!

Land on the Moon,
Put that space suit on,
Hang time on the Moon
Won't be home 'til June.

Drive the lunar rover
NASA can you see?
Do your space experiments
Coulter and Audrey.
